QuickDry  
system

Urban is a modern, unique sofa that can be used indoors and out. The deep, high, soft cushions are made for relaxation. The designers behind Urban are ByKato, who are respected for their ability to create innovative yet timeless designs. The cushions are made of the soft, weatherresistant Sunbrella® Natté fabric with Cane-line's unique QuickDryFoam®, ensuring that they can withstand rain, wind and the baking sun.

**Cane-line®**

Urban is available as a 3-seater sofa, and is the perfect match for your cosy corner outside. It is made of a strong, powder-coated aluminium frame with elegant teak legs. The Cane-line QuickDry system is special technology which ensures that the cushions dry quickly – even after a downpour.
