A Portable Table Lamp for Any Setting

Normann Copenhagen launches Porta Table Lamp. As implied by its name, Porta is the first portable lamp in the lighting collection. Characterized by its rounded, organic design cues, the cylinder base and elongated dome shape of the lamp shade contribute to an aesthetic cohesiveness. The distinctive lamp shade is designed to accommodate the need for pleasant, atmospheric lighting in smaller settings. When turned at a 90-degree angle, the lamp shade takes up less space, allowing it to easily fit into compact spaces such as windowsills, small café tables, or shelves.

Porta's flexibility is further emphasized by its mobility. The cordless and lightweight design enables you to bring the lamp from the kitchen to the garden to your favorite reading nook. A touch-sensitive dimmer allows for three different light settings depending on the desired atmosphere, while a discreet USB charging cable ensures easy charging. Porta will provide a cozy light in any setting and fits seamlessly into commercial and residential spaces alike. Porta comes in three different colors of black, grey, and white.
